The Willow Cottage is a nice blend of shakes and baton & board siding with rustic stone accents and is architecturally appealing. The open floor plan has the feeling of being larger with the vaulted great room and corner gas fireplace. A great working kitchen designed to maximum your countertop space includes breakfast bar and pantry. The dining room is in between the kitchen and the great room creating that entertainment flow. Double doors introduce the primary bedroom suite with a bath with 2- sink vanity and a tiled shower. Plenty of room for your wardrobe in the huge walk-in closet. The upper level has 3 bedrooms or elect to have the 4th bedroom open for a loft that would view the great room below. A large linen closet and the main bath completes the upper level. The Neighborhoods at Edgewater Hill is a unique community with generous allowances for cabinetry, appliances, and lighting. No two homes will be the same as plans are removed once selected.
